PERENNIALS AND ROCKPLANTS
Since 1905

ಉಯ

If you are seeking unusual plants we have them

Expert Construction of Naturalistic Gardens is Our Specialty

62.6

(ACTUAL SIZE)

GENTIANA, Acaulis
The True Gentianella

We have fine plants of this beautiful gem.

It is our pleasure in offering to our customers and friends the following remarkable collection of new introductions and most unusual varieties\* of Hardy Perennials and Rockplants.

Again we call your attention to the fact that all listed plants have been tested for their perfect hardiness, and that all have been grown and raised by us from seeds, or cuttings or divisions.
